OCEAN SPRAY

Superb, Pure White Carnation of Unexcelled Beauty and Quality
PERFECT FLOWERS ON STRONG STEMS WITH CALYXES WHICH DO NOT SPLIT
A TRIUMPH OF THE ART OF BREEDING

FOR over a quarter of a century the name of William Sim has been associated with the growing and breeding of fine flowers. His originations have been disseminated in every country where carnations are grown. He is recognized as an artist supreme in his field.

Today THE WILLIAM SIM CARNATION CO., INC. takes great pride and pleasure in offering to all growers of fine carnations the product of years of research and labor by this master—six new varieties, each unexcelled in its class. Each is a seedling which can receive no greater recommendation than that William Sim considers it amongst his best originations. We offer these new varieties unrestricted, believing that by so doing, although we may possibly forfeit a slight profit to ourselves, the industry as a whole will benefit.

Place your orders early.
